

**Announcement:**

The Bureau of Land Management (BLM), Carlsbad Field Office (CFO) and DCP Midstream will be hosting one public scoping meeting as part of the continued outreach effort and involve the public in the review of the proposed activities. DCP Midstream is requesting the opportunity to access public lands to construct a 164 acre gas pilot plant and a 20-inch, 50-mile buried pipeline project. This announcement with the enclosed maps and project description fulfills BLM's requirement to inform the public about the project and to discover relevant issues identified by the public.

The two scoping sessions (both will cover the same topics) will be held in Carlsbad at the following locations:

April 25, 2013  
Pecos River Conference Center  
711 Muscatel Dr. in Carousel House  
Carlsbad, NM 88220

There will be two scoping sessions, one afternoon and one evening session, held at the same location. The first session will begin at 1:00 pm and will conclude at 3:30 pm. The second session will begin at 6:00 pm and will conclude at 8:30 pm. The scoping sessions at each venue will discuss the same information. BLM staff members will be available following each scoping session to answer any additional questions you may have about the proposed project.

If you have questions, please contact Robert Gomez, Realty Specialist, at (575) 234-5989 or [rgomez@blm.gov](mailto:rgomez@blm.gov).
